

Subject: Request for Support: IFMA Kansas City Membership

Hi [Manager's Name],

I hope you're doing well. I'd like to request a few minutes of your time to discuss the potential value of a membership with the **International Facility Management Association Kansas City Chapter (ifmaKC)** and how it can directly benefit our team and organization.

ifmaKC is a professional network of nearly 300 local facility management leaders, offering invaluable access to educational events, industry insights, peer connections, and proven strategies that drive operational excellence.

By becoming a member, I can:

- Stay informed on emerging trends, codes, and technologies affecting our industry
- Gain actionable knowledge through training, roundtables, and speaker sessions
- Network with top professionals and vendors to identify cost-saving solutions
- Learn from real-world success stories and bring back ideas we can apply internally
- Share key takeaways with our team to multiply the benefit

The membership cost is relatively modest, especially considering the professional development and operational ROI. I'd be happy to present a full breakdown of the investment and value, as well as keep you and the team updated on what I learn.

Would you be open to a quick meeting to go over this? I believe this opportunity can contribute meaningfully to both my role and our overall success.

Thanks for considering,
